- Strongly support
- Somewhat support

And of these voters...

73% ages 18-34 overwhelmingly support accelerating the development and use of clean energy.

- Strongly support
- Somewhat support

National Poll

76% of voters state it's important that a candidate shares their opinion on clean energy issues.[3]

- Very important
- Somewhat important

70%

of voters prefer clean energy production through market and business approaches over government mandates and quotas.[5]

- For market and business approaches
- For government mandates and quotas

MN Survey Participant Ideology: Very Conservative: 24% | Somewhat Conservative: 27% | Moderate: 29%

[1] Survey of 400 voters in three conservative Minnesota Senate Districts: Senate Districts 8, 17 and 23
[2, 3] Poll question: How important is it to you that a candidate for political office share your opinion on issues relating to clean energy?
[4] Poll question: Would you support or oppose the government taking action to accelerate the development and use of clean energy in the United States?
[5] Poll question: Which approach would you prefer to increase clean energy production?

EMBRACE CLEAN ENERGY.
